

A Lasting Impression

Patrons now have an opportunity to personalize bricks being placed in the Sensory Garden's walkway of friendship. Each engraved brick demonstrates continued support of the Nature Center, provides a fine way of honoring a special person or organization, or creates a lasting memorial to loved ones. Your brick helps sustain the quality of the Beaver Lake experience.

The Sensory Garden

Created as a quiet area to touch, taste, smell and see a variety of herbs, the garden's unique design allows for comfortable accessibility by everyone, including those using wheelchairs.

To Order

Each brick allows two lines for your message. Each line contains a limit of 14 characters including spaces and punctuation (please see sample below). Contributions are tax deductible. The donation for a personalized message is \$50 and the donation for a business name is \$150. For questions, please call Beaver Lake Nature Center at 638-2519.
